

Inside Lifestone

Enger Park

We sure got out of the house this month making sure to really take advantage of the beautiful weather. One of the many activities that took place was a trip to Enger Park. There, everyone enjoyed the panoramic scenic views, relaxed in the peaceful area, and the Japanese garden.

Our Team in the Community!

The Lifestone team has been active in the community! Three of our team members represented Lifestone at the Chum Rhubarb Festival by volunteering to set up the site. What a great way to kickoff the wonderful event.

Adorable Animals

The adoption center Animal Allies has done such great work in the community for animals that need homes. Some of us visited the center for part of the day and got to spend time with the cute cuddly animals!

A Drive Around Town

Always being up and about, sometimes it's nice to have an activity that just involves relaxing, so that's what we did. We went for a drive around town.

Driving around town via Skyline and sighting all sorts of nature such as the swans in a near pond, it was quite the time.

Canal Park and More

We headed down to one of the greatest tourist attractions around town, Canal Park. The sun was shining bright making it such a beautiful day. Down there, we visited the Lake Superior Maritime Visitor Center museum. After viewing all the interesting exhibits, we made sure to soak up the sunshine while it lasts.

A Stroll in the Garden

Continuing to take advantage of the warm weather while we can, we enjoyed the aroma of some beautiful flowers at the Rose Garden. There, we learned about different types of roses and the hard work that goes into keeping the flowers ravishing. We were also able to look out onto Lake Superior, and see all the ships and sail boats making their way across the Great Lakes.

Caregiving

Our team got together for our second quarterly staff meeting, and it was definitely a success! With health and safety as our top priority, it was great to have more informative training.

Gardening

This summer, we started our garden on the patio with all sorts of flowers and vegetables. We're hoping for a fruitful garden by the end of the summer!
